Glove Solutions Guide

About us

Wells Lamont Industrial provides a comprehensive selection of gloves which can help protect your hands from cuts, impact, abrasions, heat, and cold. We are ready to help you handle the toughest applications in general industry, pharmaceutical areas, cleanrooms, research laboratories, and industrial environments.

Our products are made with the finest materials and advanced technology, so you can be assured the gloves you're wearing provide maximum value and can help you perform at your best.

Wells Lamont Industrial has been a long time vendor and a strategic partner with VWR. You can feel confident in that our products are made in the US in an ISO 9001-2015 Certified facility centrally located in Mississippi which is convenient to either coast.

Gloves

Table of Contents

- Nylon liners 3
- Sterile liners 4
- Cut resistant. 4
- Cut resistant liners. 5
- Cut resistant coated palm 6
- Fully coated 7
- General purpose coated palm. 7
- Heat 8

A7	≥4,000
A8	≥5,000
A9	≥6,000

ANSI Cut Rating Levels

When tested in accordance with ASTM F2992-15 Test Methods for Measuring Cut Resistance of Materials used in Protective Clothing, the glove's resistance is classified against levels, using the weight needed to cut through the material with 20mm (0.78") of blade travel.

Cut resistant coated palm

Your job can require you to use your hands and fingers for a broad range of both routine and critical tasks. Make sure you have the palm & fingers coated gloves that will give you the specific coverage, protection, grip, tactility, and dexterity you need.

FlexTech™ Series
